

The logo for Polystyl, featuring the word "POLY" in white lowercase letters above "STYL" in white uppercase letters, both on a black square background.

Residential Vinyl Sheet Flooring

Made in Europe

Waterproof • Child Friendly • Pet Friendly

Polystyl Origin | Sherwood Clair 6761010

DISTRIBUTED BY  **AFS** AUSTRALIAN FLOORING SUPPLIES

Polystyl Agora Arcadia Middle Grey 5589066

Durable and Beautiful

Polystyl vinyl sheet flooring is highly durable and beautiful so you get a high-end looking floor with a realistic timber, stone or concrete appearance without the maintenance nor the high price tag of hard flooring.

Manufactured in Europe by Tarkett, Polystyl features all of the durability you expect from a resilient floor covering. Polystyl sheet vinyl is waterproof, stain resistant, impact resistant and scratch resistant. With very few seams, it is also easy to maintain and keep clean.

Available across five distinct ranges that cover residential sheet vinyl and commercial sheet vinyl, there is a Polystyl solution for every project.

The waterproofness and ease of maintenance make Polystyl's residential vinyl sheet flooring both child friendly and pet friendly while the combination of high-durability and low-cost make it perfect for rental properties.

The high-wear layer, slip resistance and easy maintenance make Polystyl's commercial vinyl sheet flooring perfect for high traffic areas such as healthcare and education (see the Forum Plus brochure for more).

Soft & warm

Stain resistant

Natural look & feel

Highly durable

Stocked in large volumes

Waterproof

Polystyl vinyl sheet flooring is built to last. Manufactured for longevity, our ranges of Polystyl vinyl sheet flooring also consist of classic and popular timber, stone and concrete looks that won't date.

Polystyl Agora | Gea Light Grey 27013015

Sustainability

By avoiding fad colours and choosing a quality, long lasting product, you are investing in a long-term flooring solution.

A long-term solution means less product purchased and used over time, which equals less waste.

However, when it does come time to replace your Polystyl vinyl sheet flooring, you can avoid contributing to landfill as all of our Polystyl ranges are 100% recyclable. Any offcuts left over from installation can also be recycled.

Polystyl is also phthalate-free and has a high indoor air-quality rating, which together contribute to healthier working and living environments.

Beautiful and durable,
Polystyl is not your average
vinyl sheet flooring.

Polystyl Agora | Apun Oak Light Grey 27013036

Why Polystyl?

Design & Performance

Manufactured by Tarkett in Europe, all Polystyl flooring features authentic designs and high definition patterns.

- Available in beautiful stone, timber and concrete designs
- Extensive colour options
- Extra-long and extra-wide plank lengths available on select designs
- High resistance to indentation
- Wear layers provide durability and resistance to scratching
- Ultra matt surface effect for a natural and realistic finish
- High pattern repeats available
- High performance PUR surface treatment to prevent visual ageing and easy removal of scuff marks

Comfort

Comfort is Polystyl's range of textile and cushion-backed residential sheet vinyl and the commercial range, Forum Plus, with a compact construction.

- High impact sound reduction ratings (12db to 19db) on the four residential ranges Xpress, Origin, Agora and Lumina
- Softer and warmer underfoot than luxury vinyl tiles, laminate and ceramics
- Softer floors are safer floors for our young and elderly
- Outstanding sound insulation without the need for additional underlay with the four residential ranges, making them ideal for multi-level homes and apartments[^]

Wellbeing & Sustainability

Polystyl vinyl sheet flooring has been designed for healthy living.

- Manufactured with up to 30% recycled content
- Easy to clean with no deep grout joints or seams to collect dirt and dust build up
- Phthalate-free technology for healthy indoor environments and improved air quality
- Carries the British Allergy Foundation's seal of approval

[^] Data sheet should be approved by apartment building management prior to the purchase of the product

Agora

Premium textile-backed residential sheet vinyl

Agora is Polystyl's highest performing residential sheet vinyl offered by AFS featuring a 0.35mm wear layer, a 15 year residential warranty, R10 slip resistance and an impact sound reduction rating of 19 decibels.
