

10M TAPE MEASURE WITH RUBBER GRIP **T1025M-HD**

T1025M-HD 10m Tape Measure With Rubber Grip - HEAVY DUTY

The 10m tape measure - T1025M-HD features a non-slip rubber boot covering almost the entire case providing excellent impact resistant from the inevitable drop. The nylon coated tape includes metric measurements on a large, 25mm wide blade.

This heavy duty tape measure is manufactured from a high quality material, built for longevity, due to its strength and superior durability. Featuring a large standard blade lock for accurate measurements which allows for easy control around curves or corners.

- Rubber boot protects the tape
- 25mm blade width constructed from carbon steel for strength and visibility
- Clear coat blade protection for durability and longevity
- Positive blade lock for accurate measurements
- Belt clip included

Code: T1025M-HD
