DIAMABRUSH™ Mastic Removal Tool

is designed to remove stubborn coatings from concrete, such as mastic, carpet or tile adhesive, thin-set and thin mil coatings like urethane or paint. No need to waste time and money on heavy grinding equipment or harmful chemicals. This diverse tool, which mounts to any standard floor buffer or auto scrubber, uses diamond coated blades to grind tough coatings away!

User safety is greatly enhanced since dangerous and volatile chemicals are not required. Simply apply water to eliminate dust and to flush debris away.

Safely prepare concrete floor for resurfacing, quickly and efficiently with Diamabrush Mastic Removal Tool.

The Mastic Removal Tool

is designed with replaceable blades, which enable users to order a replacement kit and easily change used or worn blades minimizing downtime. Simply loosen two screws and replace.
